

# **Child Safety at Hope Community Church**

Hope Community Church is committed to providing a safe and healthy environment for our children and youth. Our congregation highly values the education and formation of children/youth, and we encourage fostering healthy and meaningful relationships among all ages of our church family. We know that we need to protect and intentionally care for those who are more vulnerable within our church and under the supervision and influence of others. Out of this desire we have created multiple policies and procedures around safety and abuse prevention.

If you have questions regarding these policies, you can reach out to our [Senior Director of Operations](#)
